VISION

#Sweden Sports With Ukraine

Empower people for active life again

Background

Due to the war, over 20’000 Ukrainians suffered from war-related injuries, resulted in amputations and spinal cord injuries.

The number is growing everyday. Civilians and defenders, kids and adults. They are losing ability to have an active lifestyle.

Vision

To empower people with the war-related injuries for active life again:

to feel included, engaged and contributing to society. They shouldn’t feel as people with limited abilities, but rather as the people with UNLIMITED abilities!

Goal

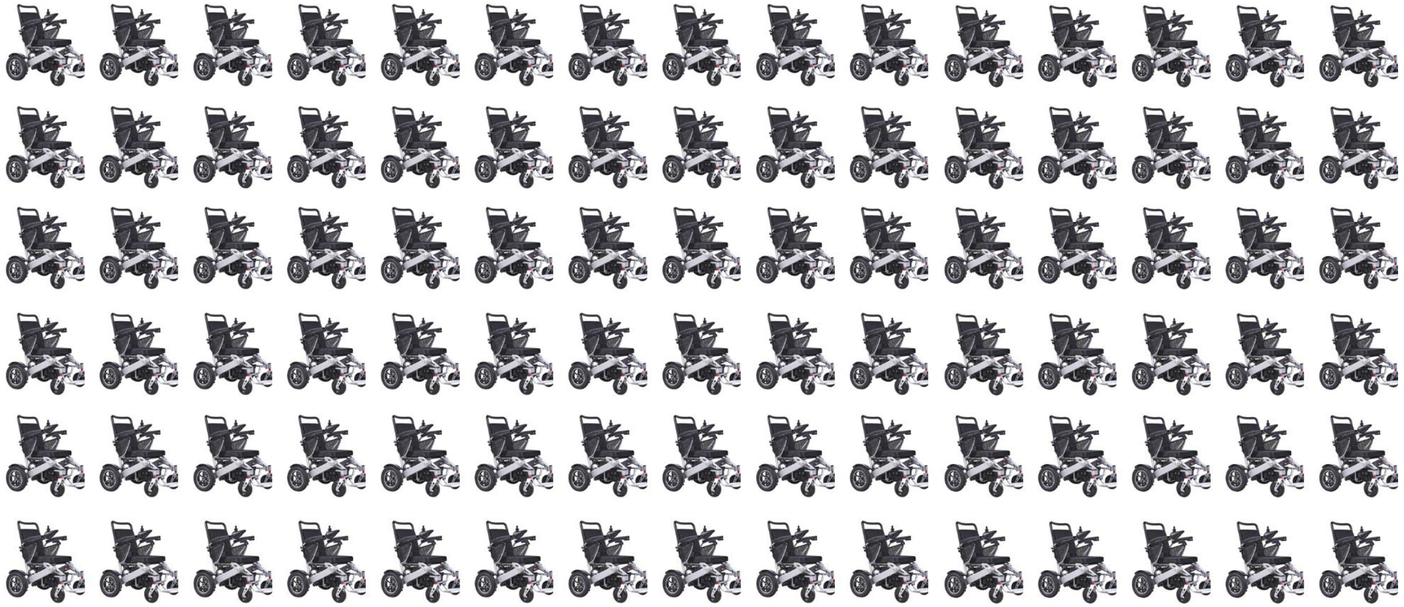
To provide 100 electric wheelchairs for Ukrainian kids and adults enabling their mobility and inclusion.

#Sweden Sports With Ukraine

Empower people for active life again

100 electric wheelchairs for kids and adults

with war-related injuries in Ukraine



GOAL

1’200’000 SEK

#Sweden Sports With Ukraine

Empower people for active life again

Funktionsnedsatta ukrainare saknar stöd

7:47 min · Min sida · Dela

Publicerat igår kl 07.46

- Efter att EU förlängt massflyktsdirektivet för ukrainska flyktingar med ytterligare ett år, till 2025, behöver deras rättigheter ses över. Det menar organisationen Funktionsrätt Sverige, som samlar ett stort antal riksförbund för personer för funktionsnedsättning.
- Massflyktsdirektivet ger idag bara begränsad rätt till vård och stöd för flyktingar med funktionsnedsättning.
- Vi har träffat 36-åriga Olha Ostapiuk i Växjö. Hon ansökte om en elektrisk rullstol för att kunna ta sig ut själv, men fick nej.
